

SOUMYA SINGH - PMP, CSPO

Austin, TX | Open to Relocate | (737) 484-7648 | soumya3436@gmail.com | [LinkedIn](#) | [Portfolio](#)

Solutions Engineering | Customer Discovery & Process Design | AI-Native Prototyping

EDUCATION

University of Texas at Austin, Cockrell School of Engineering

Austin, TX

Master of Science in Engineering Management

Dec 2025

Alliance University, Alliance College of Engineering and Design

Bengaluru, India

B.Tech. in Computer Science and Engineering

Aug 2020

EXPERIENCE

Business Process Engineer / Solutions Analyst | Saayam For All, Remote

Mar 2026 - Present

- Embed with stakeholders and operating teams to map current-state workflows across 3+ concurrent workstreams, design future-state processes, and translate ambiguous business needs into shippable prototypes at 90% on-time delivery.
- Build executive status updates and prototype-ready specifications using AI-assisted tools, tracking 20+ defects and action items to resolution while partnering with engineering on delivery handoff.

Graduate Assistant | UT Austin Libraries, Austin

Jan 2025 - Dec 2025

- Led discovery and requirements design for a 6,000+ record digital asset management migration with 500+ standardized metadata records, mapping current-state to future-state architecture and reducing rework by 42% through clear engineering specifications.
- Built a Smartsheet PM Command Center consolidating schedule, risk, and milestones into one operating layer for the program, reducing manual reporting effort by 20% and improving on-time delivery by 40%.

Business Process Analyst / Solutions Consultant | Accenture, Bengaluru

Dec 2021 - Oct 2023

- Embedded with global retail clients across 3 cross-functional teams on Salesforce Health Cloud, Workday HCM, and ERP implementations, leading discovery workshops with 50+ stakeholders across 11+ releases.
- Authored BRDs, FRDs, UML diagrams, and data mapping specifications that engineering teams built without ambiguity, saving 4 hrs/week in coordination and contributing to a 30% improvement in deployment reliability.
- Coordinated incident triage and root cause analysis between support and engineering teams, closing 10 high-impact defect patterns, reducing repeat escalations by 43%, and documenting fixes in runbooks.
- Built Power BI dashboards tracking release health, defect trends, and adoption KPIs that gave VP-level stakeholders data-driven visibility, contributing to a 32% reduction in post-release defects and 25% fewer launch-day issues.

Business Analyst, Presales | Zoho Corporation, Chennai

Sep 2021 - Nov 2021

- Co-ran presales discovery for Zoho Expense enterprise customers, translating 1,000+ case patterns into prioritized epics and acceptance criteria, improving time-to-resolution by 13% and contributing to 20% higher retention.

Operations Analyst | Bindal Group of Companies, Surat

Sep 2020 - Sep 2021

- Managed end-to-end operations across 1,000+ SKUs and 3,000+ monthly orders, improving on-time dispatch by 17% and inventory accuracy by 15% through tightened reconciliation and exception workflows.

LEADERSHIP PROGRAMS & PROJECTS

jobsearch-s-ai - Personal AI Product (Python, Claude API, React)

May 2026

- Built jobsearch-sucks-ai, a Python + Claude API + React platform with 6 features (Job Fit Screener, Bullet Rewriter, ATS Optimizer, Resume Builder, Master Resume Selector, Bullet Generator) — ran end-to-end customer discovery on a real pain point, mapped current-state to future-state workflows, designed product architecture, and shipped working prototypes using vibe coding (Claude, Cursor, Claude Code).

McKinsey Forward Program - McKinsey & Company (Leadership Program)

Oct - Dec 2025

- Applied McKinsey's problem-solving frameworks, including issue trees and hypothesis-driven analysis, to real business cases, building skills in data-driven decision-making, executive communication, and stakeholder influence.

SKILLS

Customer Discovery & Process Design: Discovery workshops, Stakeholder interviews, Current-state and future-state workflow mapping, BRD, FRD, UML diagrams, Data mapping, Gap analysis, Process flow modeling, Operating layer assessment

AI-Native Prototyping: Claude API, Claude Code, Cursor, ChatGPT, OpenAI, GitHub Copilot, AI-assisted development, Prompt engineering, Rapid prototyping

Enterprise Platforms & Integration: Salesforce Health Cloud, Workday HCM, SAP ERP, Snowflake, Zoho, ServiceNow, Azure DevOps, Smartsheet, Workato, REST APIs, Postman, ETL workflows, Airtable

Delivery & Communication: Agile, Scrum, Sprint planning, Retrospectives, Executive reporting, C-suite stakeholder management, Power BI, Tableau, SQL, Python (basic), C# .NET

CERTIFICATIONS

PMP (PMI, Oct 2025) • CSPO (Scrum Alliance, Jun 2025) • Azure Fundamentals AZ-900 (Microsoft, Jun 2023) • Workato Foundations L2 (2025)
